

**A world of
solution for
Loading Ramps**

WM LIGHT PLUS series

Standard sizes Width 37" & 47" – Lengths 98" - 126"	Capacity 1.300 lbs
Ergonomic function of approx 26 lbs of force	Space required Approx. 8"

Characteristics
WM Light Plus is made of anti-slip aluminum making it lightweight and handy. Simple to use thanks to the wheel kit and spring assist installed on every ramp. Also standard is our industry leading external swivel.

Options Include: An internal swivel kit allows for full 180° motion and third piece extension to lengthen the ramp.

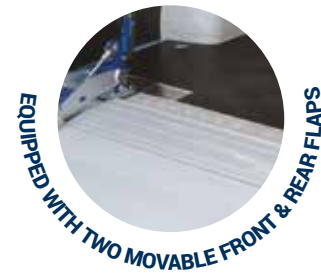

WM PC series

Standard sizes Width 47" – Lengths 98" - 128"	Capacity 2.200 lbs, 3.300 lbs
Ergonomic function of approx 33 lbs of force	Space required Approx. 4"

Characteristics
The WM PC is the most robust & durable of the WM Systems loading ramps. The platform is made from shot-blasted anti-slip aluminum to give excellent grip during loading. Suitable for most loading and weight requirements. Featuring standard spring assist, self-lowering support feet and wheel kit.

Options Include: An internal swivel kit allows for full 180° motion and third piece extension to lengthen the ramp.

Perforated

Characteristics
WM Light, Light Plus, and Easy series ramps are available with optional perforated floors. This material is made exclusively by WM to have a more robust anti-slip surface and features both convex holes and protuberances. This ramp surface is ideal in rain/snow/ice/beach climates.

Box Van

Characteristics
The WM Light & Light Plus series loading ramp is the ideal ramp for box van and box truck applications. Custom sizes are available to fit a wide range of industry and customer needs.

WM LIGHT Series

A Permanent or Removable Ramp System

Available sizes Width 31" to 47"	Capacity 880 lbs
--	----------------------------

Characteristics
The WM Light series is a simple and lightweight ramp. Standard install is permanent with spring assist and wheel kit. Optional kit allows for removal in moments. Ideal for sharing between fleet vehicles. Universal application with custom sizes available.

WM EASY Series

Ramp for side doors

Available sizes Width 31"	Capacity 660 lbs
-------------------------------------	----------------------------

Characteristics
WM Easy features lateral storage which allows the cargo area to be completely unobstructed for daily use. Additionally equipped with spring assist and perforated surface. This agile and easy to use ramp is ideal for the side door of both small and full size vans.
